

2018 Sheboygan County Quilt Guild Mystery Quilt-A-Long

Clue #3

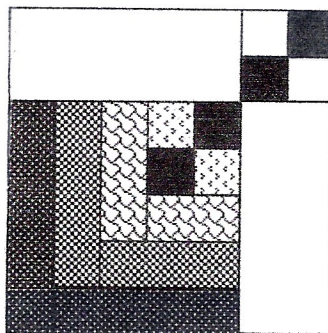

Note: In this part, you will do some advance cutting for Part 4. This is so you can use the leftover fabric to cut pieces needed for this part.

Unit 4A – Large Setting Triangles

- Step 1: Cut (3) 15½” strips from the **light** fabric.
Cut (5) 15½” squares from the strips.
Cut each square in half diagonally. Save these (10) triangles for Part 4.

Unit 4B – Corner Triangles

- Step 2: Cut (1) 10½” strip from the **light** fabric.
Cut (2) 10½” squares.
Cut each square in half diagonally. Save these (4) triangles for Part 4.

Unit 3A - Extended Blocks

- Step 3: You will need (36) 4½” x 10½” rectangles for this part.
From the leftover **light** fabric, cut as many 4½” x 10½” rectangles as you can.
- Step 4: Count how many rectangles you got from the leftover fabric. Calculate how many more you need and divide your answer by 4. This is how many 4½” strips you need to cut. Then cut the rest of your 4½” x 10½” rectangles from the strips.

For example: Let's say you were able to cut (16) 4½” x 10½” rectangles from the leftover light fabric. You need 20 more rectangles (36 – 16 = 20). You can get 4 rectangles per strip, so you need (5) 4½” strips (20 / 4 = 5).

(Note. If your fabric shrank a lot during washing, you may not be able to get 4 rectangles per strip and will need to cut more strips.)
